to 90%

Nowadays, a company which wants to grow and overcome the crisis has to be able to make better use of its resources and keep every single cost under control.

The management of the waste is often left to chance: the staff spends part of its time for stacking and storage, bulky waste hinder movements, the loading and unloading operations disturb the work, the costs of disposal are high.

Packaging, plastic, nylon, scraps, cuttings, bags, paper, cardboard and scrap materials can thus become a problem.

Designed to manage the waste, Ecopressa is the ideal solution which allows the company to reduce costs and improve the efficiency of business processes.

ECOPRESSA offers you many advantages:

sanitation costs reduction, transportation costs reduction, general expenses reduction, reduced number of emptying, better hygiene and management of the waste, reduction of costs related to the rate of urban hygiene.

Ideal for:

Hospitals
Rest houses
